

ANDY KING

—PHOTOGRAPHY—

FAQ

Retainer | There is a \$400 retainer to secure a wedding date. The retainer will be applied to your wedding package.

If the wedding package includes an engagement session, the retainer will be \$825.

If the wedding package includes videography, the retainer will be \$1300.

If the wedding package includes an engagement session and videography, the retainer will be \$1325.

Methods of Payment | Cash, Check, Credit Card, Venmo. Please make checks out to Andy King Photography. Our Venmo is AndyKingPhotography.

Preferred Method of Payment | Venmo, Cash, and Check. On average, we get charged \$75 - \$150 per wedding for credit card transaction fees. If you are able to make the payment without a credit card, we can apply the discount to your package.

Guest Registry | We can provide a free, fun online registry for your wedding guests to pay for a portion/all of your wedding package. They can also purchase your engagement session, mess-the-dress session, boudoir session, Signature Guest Book, Italian Wedding Album, or Parent Albums. Couples LOVE it. Contact us for more info!

Studio and Meeting Location | San Diego, California

Studio Address | Treelite 632 Josh Way Alpine, California 91901

Delivery Schedule for Wedding Pictures | 3-5 weeks

Editing | Andy King performs all post-production and editing on pictures in keeping with his unique quality and craft. All pictures are edited for look/feel, exposure, brightness, contrast, and other effects. Traditional Retouching is also available to order through your online gallery.

Quantity of Pictures/Image Count | We do not outsource our picture editing to a third party, therefore we can deliver a high picture count. Third party editing services charge the photographer per hundred pictures for retouching, so photographers in the industry tend to limit the number of pictures they can deliver to 700 or 800 pictures. Depending on the package you select, we deliver up to 2000 edited pictures.

High Resolution Files | All wedding packages include the high resolution JPEG files. The pictures are copyright released.

Online Gallery | Each wedding package includes a beautiful, private, password protected gallery for viewing and downloading your high resolution picture files. It is accessible with any device. You can share your gallery access information with family, friends, and wedding guests to download pictures for free. There is also a shopping cart available to order professional prints, metal/canvas wall portraits, and the Italian Coffee Table Album.

Highlight Montage | This is our favorite part of wedding picture delivery! It's a captivating slideshow of Andy's favorite images from your wedding set to music. The music can be your choice of favorite song as a couple or maybe your first dance song.

Prints | We are a client of the preeminent photography laboratory in the USA. Their artists craft our products in keeping with Andy King's custom enhancements.

Videography | Andy King has teamed up with the most sought after videography team in San Diego, and we are really excited about it! We love working with them and they are extremely talented. It's advantageous to have a photographer and videographer that work seamlessly together on your wedding with a similar style in quality, craft, and feel.

Italian Wedding Albums | Our wedding albums are crafted in Italy. We offer the most unique image presentation available. Includes custom designed pages, finest photographic paper, covers from aluminum to leather. You will select your favorite images and the style of album. We create the page layout based on our style and craft. There are no proofs, previews, and/or back and forth correspondence involved in the album design process as we use only the images you have selected.

Photography Style | You have viewed our work, you love our work. We love your ideas, and we absolutely want to see your Pinterest page! We want to get inside your head and know your character and any funky ideas you have. With that said, we don't follow lists and copy cliché, overdone wedding pictures. We aren't the cover band, we are the original artist. :)

Engagement Sessions | The sky is the limit. Think. What do you do when you have a weekend off? What do you do together? Your engagement session can be a real experience. Maybe your experience is to meet up in a dive bar, have a drink, play some pool, then go off to a walk a suspension bridge near your neighborhood. Finishing up with a drive down to catch a sunset, under a pier at your favorite beach. Or, maybe it's a dense forest & serene lake, woods & open field, abandoned building & old highway, or city street & rooftop experience.

We have three wedding packages that include an engagement session and all of the high resolution files. An engagement session can be added to any package that doesn't already include one. Please note that if we create a custom package for you, the high resolution files may not be included with your engagement session, but can be ordered through the shopping cart in your online gallery.

Trash-the-Dress Session | Andy King's favorite session. It is really a mess-the-dress session, because the aim is not to trash the dress, but to create captivating pictures within amazing destinations. All high resolution files are included in your session.

Established | Andy King Photography was established in March 2001

Experience | Andy King has over 21 years photographing weddings and 26 yrs. of portrait experience. Treelite team photographers range from 10 – 30 years of experience.

Travel | Andy is available for travel both nationally and abroad for sessions and weddings.

Destination Wedding/Elopement Travel Fee | In some cases, there is no price increase to wedding packages for travel, as long as hotel, flight, and rental car are provided. It is best for Andy to be at the destination the day before the wedding to scout the location and attend the rehearsal.
